HELENA, Mont., Jan. 16.-The M. ntana State Legislature met in joint assembly at noon today to ballot for two United States Senators. The voting was indecisive on the four-year term, but W. A. Clark had everything his own way on the long, or six-year, term, and on March 4 next will succeed Hon. Thomas H. Carter. There were \$3 votes cast, and of these Clark received 57, or 10 more than were this afternoon with the handsomely enrequired to elect.

The announcement of his election was islators and audience, which filled the immense city auditorium where the session was held. Among the first to congratulate Clark was F. > Senator Foraker Declares His Remarks Concerning the Supreme Court's Decision in the Territorial Cases Were Misconstrued-The Administration Again Criticised.

The executive session of the Senate yeserday was enlivened by an animated discussion between Mr. Pettigrew and Mr. Foraker, in which the latter took Mr. Pettigrew to task for what he alleged to be the Ohlo Senator Tuesday during the course of the debate over the nomination of James F. This assumption on the part of the Senator from South Dakota aroused the ire of Senator For-aker, who replied with much warmth. Mr. Foraker disclaimed any knowledge of how the court would decide the questions in-volved in the Porto Rican cases. He said that he had no information on that subject, either directly or indirectly, but he believed, as did all Senators who voted for the legislation which gave rise to Wit these cases, that it was constitutional, and that the court would so hold. The Republican lawyers of the Senate who had assisted in the framing of the bill, and who had paid attention to the arguments advanced in the cases before the Supreme Court, had been unable, Mr. Foraker said, to see how that court could hold other-wise. Mr. Foraker further said that he had repeatedly expressed this opinion in open session during the discussion of the Porto Rican bill, as well as during the executive session on the nomination which had again called up the subject.

Referring to Mr. Pettigrew's insinuation that the nominations of Mr. Justice Har-lan's son to a civil appointment and the promotion of Mr. Justice McKenna's in the army were in the nature of a bribe, Mr. Foraker said that such a sug-gestion was hardly worthy of reply. He did, however, call the attention of the Senate to the fact that young Harlan was offered an important position more than a year ago-long before the Porto Rican cases became an issue-and that to atand Secretary Hay drew the Hay-Faunce-fote Treaty. Happily, there is not much danger of our quarreling with the United States on this question. All attempts to worthy of serious consideration.
In conclusion, Mr. Foraker took Mr.
Pettigrew to task for what he said he be-lieved to be an effort, for political rea-

sons solely, to misrepresent what he had said. Mr. Foraker appealed to Senators to uphold the accuracy of his statements as to what he had said concerning the possible action of the Supreme Court. He referred at some length to the good char-acter of young Harlan and his legal at-Roach, who was buried under his locomotive. Upon examination it was found that the rails had been removed.

INDIANAPOLIS, Jan. 16 .- Ex-Gov. ames A. Mount, who retired from office with the inauguration of his successor last Monday, left his rooms, at the Denion Hotel this evening and took a walk about the city. When he returned he complained to his wife of his heart troubling him. A moment later he fell

over on the bed in his room and expired. During his term as Governor he was requently compelled to leave his duties at the capitol on account of sickness, and he often complained of the strain of office upon him. Only a few days ago his friends started a movement to have him appointed Commissioner of Agriculture.

Mr. Mount was fifty-seven years old. He was brought up on a farm, but received a collegiate education. He served
